

# Further Resources

Resources for the learners interested in going even *deeper* into Deep Learning vision systems - pun intended :)

1. Advanced DL architectures: [LeNet](#), [AlexNet](#), [VGGNet](#), [Inception](#), [ResNet](#)
2. John Redmon's [YOLO](#) (You only look once)
3. [Deep Dream Generator](#) project
4. [Generative adversarial networks](#) (GANs)

## Books

- [Deep Learning](#), by Ian Goodfellow
- *Hands on Machine Learning with Scikit-Learn & Tensorflow*, by Aurelien Geron: [Book](#) and [github repository of code and exercise solutions](#)
